# **Capital goods firms may** report flat margins in Q4

Volumes expected to rise as demand picks up in select sectors, say experts

ADITI DIVEKAR Mumbai, 8 March

0

0

omestic capital goods industry is gearing up for strong performance in 2021-22 (FY22), with margins for the March quarter expected to be flat yearon-year (YoY).

"The revenue volumes are looking up in the March quarter and may be up 8-9 per cent YoY. But with raw material prices going up for steel and other base metals, margins are seen flat for the quarter," said Vimal Kejriwal, managing director and chief executive officer of KEC International.

The company's order intake in the March quarter so far has been ₹9.600 crore. Another ₹6,000 crore are orders where the company has emerged the lowest bidder, but is yet to get a formal award of contract. It aims to end 2020-21 (FY21) with an order intake of ₹16,000 crore, against ₹12,000 crore in 2019-20.

"Demand from transmission and distribution, international (business), and

green energy corridor in the domestic market has picked up well. Oil and gas, water pipeline, chemicals, and Metro projects are a few segments showing healthy

recovery," said Kejriwal. Larsen & Toubro (L&T), on the other hand, could see an order inflow growth at 15 per cent YoY in the fourth quarter (Q4), implying the company will be able to retain 3-per cent order inflow growth for

the full year (FY21) "We see potential for midteens order inflow growth in Q4, ensuring the overall inflows for FY21 witness

expectation of a sharp decline a few quarters back," said Bernstein in its report.

Order wins for L&T in O4 were primarily led by domestic orders (78 per cent of the overall order mix), although a mix of international orders has returned to its normal run-rate of 25 per cent, said the Bernstein report.

Domestic orders were largely led by segments like railways (Metro and electrification) and power generation, it said.

Meanwhile, there were some sectors which did not pick up, belving expectations. "Due to the Covid-19 pan-

demic, there were expectations of the warehousing and pharmaceutical segments picking up, but these sectors have not picked up. There is no widespread growth in these sectors, which was strongly against industry

expectations," said Kejriwal. Going ahead, the companies remain bullish on order flow, coupled with strong earnings. "The government is focused on infrastructure spend because it recognises the fact that the driver for the economy will be infrastructure. #### **RAGHAVENDRA KAMATH** Mumbai, 8 March

Canada Pension Plan Investment Board (CPPIB), Canada's largest pension fund manager, is signing a joint venture (JV) with Indian developer RMZ, despite facing

roadblocks in previous JVs in the real estate space. CPPIB had over \$475 billion of assets under management globally as of December 31. 2020, and invested in the real estate sector in 20 countries.

Three of its Indian partners went ahead and formed similar JVs with other investors in the past. While two of its previous

JVs — with Shapoorji Pallonji Group and Ajay Piramal-led Piramal Enterprises - did not take off, another one with mall developer Phoenix Mills saw the Indian partner forming a

similar JV with Singaporean fund GIC to build malls. In 2013, CPPIB and Shapoorji Pallonji Group formed a JV to acquire FDIcompliant office buildings in major metros in the country. CPPIB owned 80 per cent of the venture with an initial equity commitment of \$200 million. The JV bought one asset in Chennai and later sold

it to Singaporean investor Mapletree. After that, the JV did not acquire any property. Later, Shapoorji formed tie ups with Germany's Allianz

group and Abu Dhabi sovereign fund Abu Dhabi Investment Authority (ADIA) to buy commercial properties.

"They had high yield expectations but yields have fallen as many investors entered commercial properties, pushing up valuations," said a person,

who dealt with CPPIB earlier. Another executive said CPPIB took a lot of time to make decisions due to its stringent processes.

Many investors such as USbased Blackstone, Canada's Brookfield Asset Management, Xander group, and other investors put in billions of dollars into Indian commercial properties in the last decade. They even tapped public markets via REITs. In 2014, CPPIB tied up with Ajay Piramal-led Piramal Enterprises to float a venture

to give rupee debt to residential projects across

major cities. Both committed \$250 million for the venture. But the venture did very

little in terms of disbursements, sources said. Piramal later floated a JV with Canada's CDPO to give equity money to property developers besides giving debt to developers on its own.

However, the two announced a JV for an infrastructure investment trust focused on renewable energy. CPPIB also invested

\$225 million in the distressed assets fund. Recently, Piramal grouped all its JVs with global investors such as CPPIB. CDPQ and others under Piramal Alternatives, its new asset management company. In 2017, it formed a JV with

mall developer Phoenix Mills to develop, own and operate malls and CPPIB invested over ₹1,600 crore in the venture in two tranches. Also, Phoenix Mills, in December last year. floated a similar joint venture with Singapore's GIC to invest in its malls and offices.

To Business Standard's queries on previous JVs, a CPPIB spokesperson said, 'We are a significant investor in India, with Canadian \$12 billion invested in real estate. infrastructure, public and private equities, funds, coinvestments and credit as on December 31, 2020. We have been investing in India before we opened our Mumbai office in 2015. We don't gauge investment returns based on short-term performance. We operate with an investment horizon that spans decades." In 2017, CPPIB formed a JV

with logistics company Indospace and committed \$500 million to the venture. In 2018, CPPIB took 30 per cent of IndInfravit Trust, the country's first private infrastructure investment trust.

to enable the firm impo essential raw materials from the US for uninterrupted manufacturing and supply of Covid-19 vaccines.

In a letter to Commerce Secretary Anup Wadhawan and Foreign Secretary Harsh Vardhan Shringla, Director, Government and Regulatory Affairs at Punebased SII, Prakash Kumar Singh said the US government has invoked the Defence Production Act because of which the firm is facing difficulties in importing necessary products like cell culture medias, raw material, single-use tubing assemblies and some specialty chemicals from the US.

Singh further said the Serum Institute is working on many other vaccine projects in technical collaboration with various Institutions for which it depends on import of many necessary products like raw materials. consumables and components from various foreign manufacturers, especially from the US.

"Through the Defence production Act, the US government has established two prioritising systems, Defence Priorities and Allocations System Program and Health Resources Priority and Allocations System. The HRPAS has two principal components i.e. priorities and allocations. Under the priority component, certain contracts between the government and private parties or between private parties for the production or delivery of industrial resources required to produce vaccine will be given priority over other contracts to facilitate expedited delivery in promotion of the US, National defence,'
